

TECHNICAL PARAMETER

技术参数

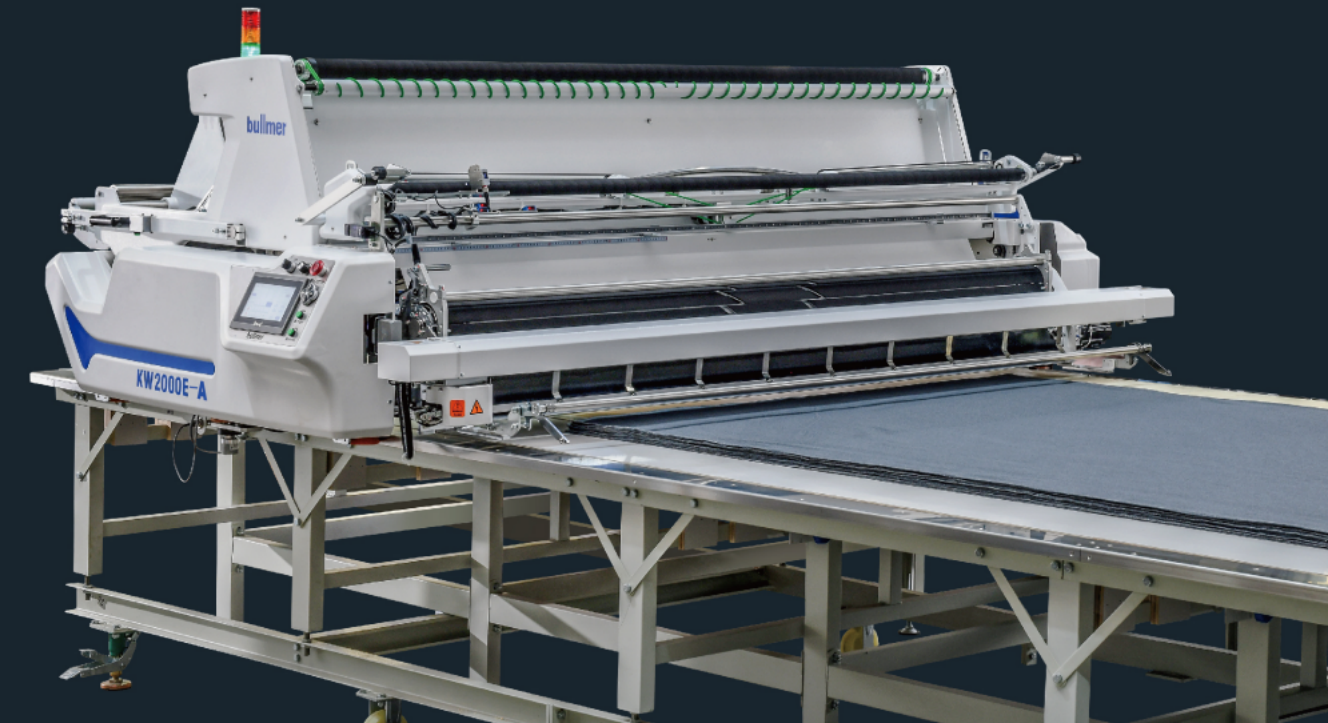

单位:mm
Unit:mm

机器尺寸L×W×H		Machine size L×W×H		
2330x1970x1000mm	2630x1970x1000mm	2830x1970x1000mm		
2930x1970x1000mm	3130x1970x1000mm			
拉布宽度 (尺寸可定制)		Spreading width (size can be customized)		
1600mm	1900mm	2100mm	2200mm	2400mm
裁台宽度 (尺寸可定制)		Table height (size can be customized)		
1830mm	2130mm	2330mm	2430mm	2630mm
拉布高度		Spreading height		
单拉 Single: 220mm max		双拉 Zig-zag: 150mm max		
净重/毛重		Net/Gross Weight		
425/525kg	475/580kg	495/605kg	520/635kg	545/670kg
最大布料重量		Max. fabric weight		
60kg max		最大布料直径		
		600mm max		
工作电压		Working voltage		
AC220V±5%		最大行走速度		
		110m/min		

bullmer
cutting room technology

ULTRA-PRECISION KNIT/WOVEN FABRIC SPREADER **KW2000E-A**

超精准针梭两用铺布机

bullmer China

拓卡奔马 (中国) 有限公司
Add: 浙江省台州临海市七一路181号
No.181|Q yihe Road L nhai Zhejiang Province|China

CORE TECHNOLOGY

核心技术

① 铺布高精度，不惧张力

Precise fabric spreading, unaffected by tension

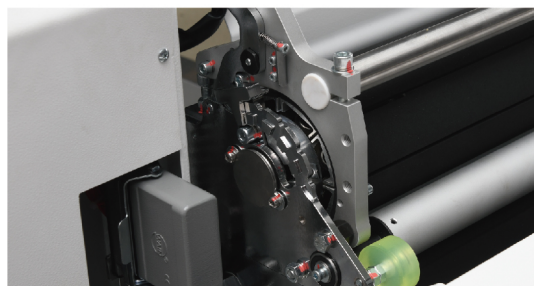

- 1、多道展布装置 (布斗弧形杆、解布杆、展布轮)
- 2、采用16组叶片+凸轮展布结构，精准调节面料展布
- 3、自动松紧感应，自动调节面料松紧度

- 1、Multiple Fabric Spreading Devices (Fabric Bucket Curved Rod, Unwinding Rod, Fabric Spreading Wheel).
- 2、Utilizing a 16-group blade + cam fabric spreading structure for precise fabric spreading adjustments.
- 3、Automatic tension sensing for automatic adjustment of fabric tension.

② 裁切快、稳、齐

Fast, stable, precise

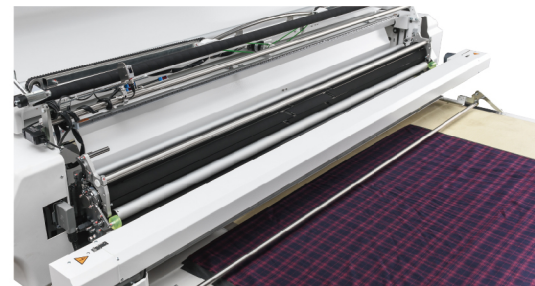

- 1、行业领先5档调节展布幅度，适应各种面料需求
- 2、皮带式一级拨边，增大拨边摩擦力，外加挡片结构，防止回卷
- 3、自动磨刀，时刻保证切刀锋利，提高布端精准度

- 1、Industry-leading 5-level adjustment of fabric spreading width to accommodate various fabric requirements.
- 2、Belt-driven first-level edge control to increase edge friction, combined with a blocking plate structure to prevent curling.
- 3、Automatic knife sharpening, ensure blade sharpening quality, improving fabric edge precision.

OTHER ADVANTAGES

其它优势

- 选配对内边功能，可铺复合面料
- Optional Inner Edge Function for Spreading Composite Fabrics.

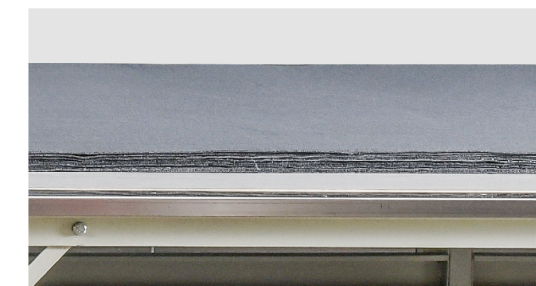

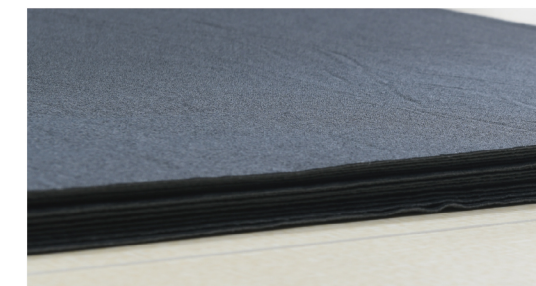

- 标配自动启停功能
- 标配面料记忆功能

- 可选配二级拨边、防静电装置，载人站台，单双拉压布功能等

- Standard Automatic Start-Stop Function.
- Standard Fabric Memory Function.
- Optional Secondary Edge Control, Anti-Static Device, Platform, Single/Double catcher Functions.

VALUE FOR CUSTOMER

客户价值

- 1、适用于针织梭织多种布料
- 2、布端切割平整，节约面料，较普通铺布机铺布端头精度提升20%

- 1、Suitable for knitted and woven fabrics.
- 2、The fabric edge is cut neatly, saving material and improving the edge accuracy by 20% compared to standard spreading machines.
